*Time limit applies from first point of contact with Jet Support team.

** Valid for a single revision. It is the responsibility of the client to test all services once configured and notify Jet Support of issues within the Time Limit and the setup package parameters. Additional revisions will incur further charges, please see our [Support Pricing](#) for more information. Please note - rushed setups required to be completed under the Time Limit will attract a 50% loading to the Package Cost.

If you need more time to complete your setup, or need to reconfigure your services after your setup is complete, you can book in extra time or changes with our team. [Click here](#) for more info and to view our price list.
